

Probiotics improve the function of immune system by promoting the environment for T-cells production. T-cells are kinds of white blood cells in our immune system. (If one lacks the balance and kinds of T-cells, it causes the immune system to malfunction. Consequently, not only your body has to suffer from chronic inflammations unnecessarily, but also our health is compromised by some incurable diseases or symptoms.)

**III. The combination of "Probiotics and Herbs"** not only provide you with "Super Herbs", but also "live and active Probiotics" which are ready for our body to absorb. In addition, *this drink* have vitamins and nutrients as well as amino acids which are byproducts from Probiotics digestion. These are important supplements for the body.

"We combine the powerful "Super Herbs" with "Super Strong Probiotics" for powerful healing that you never experience before.

#### How "Probiotics and Herbs" work?

#### How can "Probiotics and Herbs" help you?

= BAD GUYS (Bad Bacteria and Germs)

= GOOD GUYS (Good Bacteria or Probiotics)

#### What Doctors say about Probiotics...

*"I often recommend probiotics to my patients to keep their 'health bank account' full in the event that they need to draw from it when problems occur. Probiotics serve a preventive and protective role, and they act as a repair force in keeping my patients healthy."* ----Jay

Sandweiss, D.O., Osteopathic Physician, board-certified in neuromusculoskeletal and manipulative medicine and medical acupuncture  
Probiotics are considered as a credit to a healthy bank account.

#### Testimonials from those who have taken Probiotics

Mrs. Ondjung Soekman  
Age: 57  
Government Official

**Health Problems before Probiotics:** HIGH CHOLESTEROL and DIABETES  
**Symptoms:** LACK OF ENERGY  
**After taking Probiotics:** BETTER STRENGTH and LOWER SUGAR & CHOLESTEROL LEVELS

*"I've been having high cholesterol and diabetes for almost 10 years. I felt that I was weak all the time and I just didn't have the strength. I couldn't walk much because my legs just didn't have enough energy. I started taking "Probiotics and Herbs" drink for 3 months. Both my sugar and cholesterol are lower. And now, I can walk about without any problems and feel the strength and energy too."*

Mrs. Naretan Vempui  
Age: 52  
Manager

**Health Problems before Probiotics:** TOXIC THYROID & VERTIGO DISEASE  
**Symptoms:** LACK OF ENERGY, DIZZINESS, IMBALANCE AND VOMIT  
**After taking Probiotics:** FEEL FRESH, STRONG & NO MORE DIZZINESS

*"I've been having toxic thyroid and vertigo disease for as long as 10 years. I'm always dizzy, can't balance and vomit. My body is also quite weak-when I'm exposed to extreme heat from the sun or cool weather, I would feel weak. So, my usual routine is to visit the doctor every 3 months. I stayed at the hospital so often. After taking "Probiotics and Herbs", I felt dizzy for on the first day, but I couldn't expect a miracle drink. So, I continue drinking. On the third day, I felt much better. I felt so fresh. I've been taking this drink for over 3 months and I don't feel dizzy anymore. When I'm exposed to extreme weather conditions, I don't feel weak anymore."*

\* Probiotics helps alleviate the problems. To be taken as part of a balanced diet.

### Taking Probiotics & Ancient Herbs for Safe and Sustainable Natural Health Solutions

#### What is this drink? & What is so special about it?

A result of over 15 years of research, our “Probiotics and Herbs” drink was formulated. Probiotics are powerful friendly bacteria that help fight against bad or harmful bacteria. Pro = for Life and Biotics = Life, means that they “promote human’s life.” It is a lacto-fermented (lactobacillus-fermented) drink especially formulated from 4 Strong strains of Live and Active Probiotics imported from Europe:

1) *Lactobacillus Plantarum*, 2) *Lactobacillus Acidophilus*, 3) *Bifidobacterium* and 4) *Acetobacter*. We develop very strong strains of beneficial bacteria- selecting, screening and feeding them with super food so that they become strong. As a result, they effectively help you fight bad micro-organisms and become a strong defense for your body.

#### Our Uniqueness :

#### I. Selecting Ancient Herbs & converting into “Super Herbs”

Six herbs are selected by their superior qualities:

1. *Houttuynia Cordata Thumb* or **Edible Houttuynia** (ผักตบชวา) - inhibits the growth of harmful viruses & increases antibodies
2. *Curcuma Zedoaria Roscoe* or **Zedoary Turmeric** (ขมิ้นน้อย) - antioxidant & prevents dementia

3. *Gynostemma Pentaphyllum* or **Jiagulan** (แป้วจันทร) - anti-aging properties & boosts immune system
4. *Kaempferia Pafiflora* or **Black ginger** (กระชายดำ) reduces high blood pressure & promotes blood circulation
5. *Terminalia Chebula Retz* or **Chebolic Myrobalan** (สมอไทย) - prevents virus & bacteria attack; helps diarrhea; reduces sugar & cholesterol level
6. *Cephalotaxus Griffithii Hook* or **Griffith's Plum Yew** (มะขามป้อมตง) - source of vitamin C and calcium & reduces cell destructions

First, these Herbs are Organically grown. No worry about chemical residue. These herbs are turned into “Super Herbs” with the help of Probiotics digestion. “Herbs” are digested and can be absorbed almost 100% by your body, creating powerful healing qualities. In other words, they become very concentrated in quality. However, generally the molecule size of herbs in any other forms, such as capsule or drink, are so large that the body can absorb only a small portion of the amount intake.

#### II. “Super Strong Probiotics”, key to a functioning immune system

Current clinical researches indicate that Probiotics play an important role in preventing and alleviating many diseases and symptoms outside the gut as well. With strong scientific evidence, Probiotics possess significant capacity to relieve and improve conditions of those suffering from autoimmune diseases which are caused by malfunction of the immune system. Now eighty diseases can be identified, including rheumatoid arthritis, type 1 diabetes, multiple sclerosis, lupus and psoriasis, to name a few.
